

RUTGERS COOPERATIVE EXTENSION (RCE) addresses the evolving needs identified by the people, businesses, and communities of New Jersey through applied research, delivery of science-based educational programs, and access to the resources and expertise of Rutgers, The State University of New Jersey.

Our faculty, staff, students, and volunteers work across the state in areas including food security, commercial agriculture, health and wellness, natural resource stewardship and environmental protection, youth development, climate resilience, marine fisheries and aquaculture, and home gardening.
